

DentalCare Pro Enterprise v1.0.0

Quick Start & Visual Installation Guide — Practice Workstation Setup

Congratulations on receiving your **DentalCare Pro Enterprise** distribution! This package is completely self-contained and pre-configured for dental clinics. No developer tools, no command line, and no technical knowledge are required. Follow the 5 simple steps below to install and launch DentalCare Pro on this workstation.

1

STEP 1: DOUBLE-CLICK THE INSTALLER

Open this distribution folder: 'Dental Clinic Management Gift'
Double-click the file named 'Install DentalCare Pro.exe'.

**Install DentalCare
Pro.exe**
(Double-Click)

2

STEP 2: CLICK NEXT & ACCEPT LICENSE

The setup wizard will appear. Read the clinical license agreement, select 'I accept the agreement', and click 'Next >'.

DentalCare Pro Setup

Next >

3

STEP 3: CLICK INSTALL & WAIT

Click 'Install'. Setup automatically copies binaries, checks PostgreSQL, creates Desktop shortcuts, and registers the Windows uninstaller.

Extracting binaries...

100% Complete

4

STEP 4: OPEN DESKTOP SHORTCUT

Look on your Windows Desktop for the 'DentalCare Pro' medical icon.
Double-click it to start your dental practice workstation.

DentalCare Pro

5

STEP 5: COMPLETE FIRST-RUN SETUP & LOGIN

On first launch, enter your Clinic Name, Doctor Name, and Admin details.
DentalCare Pro will initialize your practice dashboard automatically!
