

DentalCare Pro - User Manual

Comprehensive Clinical & Staff Operational Handbook

Chapter 1: Workstation Navigation & Shortcuts

DentalCare Pro features an enterprise interface optimized for rapid clinical entry:

- **Universal Command Palette:** Press Ctrl + K from any screen to search patients, jump to chair schedules, or open invoices instantly.
- **Collapsible Dark Sidebar:** Minimizes for maximum clinical charting space on operatory touch monitors.
- **Station Role Switcher:** Switch between Reception, Dentist, and Administrator view modes depending on which computer you are using.

Chapter 2: Managing Patients & Medical Histories

Each patient record maintains complete medical records, drug allergies, emergency contacts, and dental insurance:

- **Allergy Highlighting:** Penicillin, Latex, Aspirin, and Sulfa allergies are prominently flagged in red on all operatory screens.
- **Document Repository:** Attach intraoral camera photographs, scans, and PDFs with automatic malware filtering.
- **Communication Log:** Review appointment history, automated SMS reminder delivery status, and recall notes.

Chapter 3: Interactive Dental Odontogram & Treatments

The odontogram represents FDI adult teeth (11-48) and pediatric deciduous teeth (51-85):

- **Condition Tagging:** Click tooth surfaces (Mesial, Distal, Occlusal, Lingual, Facial) to record caries or existing amalgams/composites.
- **Procedure Entry:** Select from ADA/CDT procedure codes (Cleaning, Extraction, Crown, Root Canal) with automatic fee calculation.
- **Treatment Estimates:** Print multi-phase treatment plans with estimated patient insurance co-pays.

Chapter 4: Billing, Invoicing & Receipts

- **Multiple Payment Modes:** Supports Cash, Credit Card, UPI, Bank Transfer, and Insurance claims.
- **Dual Print Modes:** 1-click A4 Laser Invoices for insurance claims, or 80mm / 58mm Thermal POS Slips for immediate patient checkout.
- **Digital Verification QR:** Invoices include cryptographically verifiable QR codes for patient tax audits.
