

DentalCare Pro - Receptionist Front Desk Guide

Daily Check-In, Scheduling, Billing, Invoicing & Patient Checkout

1. Morning Front Desk Opening Routine

- Turn on the reception workstation and double-click the **DentalCare Pro** desktop icon.
- Log in using your receptionist username and password.
- Open the **Appointment Calendar** to review today's patient arrivals, provider schedules, and operator chair allocations.
- Verify that the thermal POS receipt printer and A4 laser printer are powered on and loaded with paper.

2. Fast Patient Registration & Intake

- **New Patients:** Click + Add Patient (or press Ctrl + K and type 'new'). Enter Full Name, Phone, Date of Birth, and Emergency Contact.
- **Medical Alert Capture:** Ask patient for any drug allergies (e.g. Penicillin, Latex) and medical conditions (Hypertension, Diabetes, Pregnancy). These appear in bright red badges on clinician screens.
- **Insurance Details:** Record insurance provider and policy number for claim reimbursement billing.

3. Managing Appointments & Waiting Queue

- **Checking In:** When patient enters clinic, click their appointment card and select **Check In**. Status changes to 'Waiting'.
- **Seating in Chair:** When dentist is ready, move status to **In Chair**. Operator dentist screen updates immediately.
- **Rescheduling & Cancellations:** Drag and drop appointments to new time slots. System automatically checks for doctor/chair conflicts.

4. Patient Billing, Payments & Thermal Printing

- **Generating Bill:** When appointment completes, click **Create Invoice**. Completed procedures auto-populate from the doctor's odontogram.
- **Recording Payment:** Enter payment amount and choose payment mode: Cash, Credit/Debit Card, UPI, or Dental Insurance.
- **Thermal Slip Printing:** Click **Print Receipt** for an instant 80mm thermal slip with clinic branding, doctor name, and tax breakdown.

5. Evening Closing & Cash Drawer Reconciliation

- Go to **Billing > Daily Summary** to view total collections split by Cash, Card, and UPI.
- Reconcile cash in register with the software total. Report any discrepancies to the clinic owner.
- Lock the reception workstation before leaving. The automated daily backup triggers automatically at 23:00.
